

PRODUCT TYPE

Cleaning agent for fresh PU foam

PRODUCT FEATURES

Special acetone based solvent for removing fresh uncured PU foam, adhesive and paint stains from unwanted places such as window frames, doors, jambs, tools. It is easily usable and applicable. Cleaner has excellent cleansing properties and is considered highly essential for immediate out- and inside cleaning of PU foam applicator guns after their use.

APPLICATION INSTRUCTIONS

Application temperature

- **Working temperature** - from +5 °C to +30 °C.
- **Can temperature** - from +5 °C to +30 °C.

Application method

- Shake the can vigorously before use (15 - 20 times).
- Put the actuator on the valve and spray on the spots where you wish the fresh PU foam to be removed.
- Allow the solvent to act for a while before removing it with a dry cloth.
- For inside cleaning of PU foam dispensing guns connect the container of the cleansing agent with the gun, by holding the gun handle with one hand and turning the upright container with the other hand.
- Make sure that the gun is not pointed at persons when turning it.
- Only after connection turn the container together with the gun in the working position, i.e. upside down.
- Spray the cleaning agent through the gun by pressing the trigger until the liquid, escaping the applicator tip, is clear.
- Let the cleaner act for a short while and spray again.
- Clean the screw thread as well.

It is highly recommended to clean the gun regularly after 2 – 3 months of using time. This will guarantee long life and functioning without problems for the gun.

SHELF-LIFE | STORAGE AND HANDLING

Best before 36 months. For longest shelf life avoid storage above +25°C and below +5°C. Transportation of odd cans by passenger car: leave the container wrapped in a cloth in the trunk, never in the passengers' compartment.

Check separate **Storage and Handling Instructions**.

PACKAGING

500/650 ml

MAIN APPLICATIONS

- Removing fresh, uncured PU foam from tools and adjacent surfaces
- Cleaning uncured foam from unwanted areas during work
- Immediate in- and outside cleaning of PU foam applicator guns after their use
- Cleansing of dispensing adaptors (plastic straws) and valves

ATTENTION! Cleaner can not be used to clean cured foam! The cleaner can damage the lacquered or painted surfaces, textiles and plastics! Avoid spraying on spotless surfaces.

PROPERTIES

Fluid per can	500 ml
